## Susan Scheewe Watercolor Accessories

### Texture Medium for Watercolors

Add dimension, texture and limitless possibilities to creative expression with this unbelievable medium. Pure white, and easy to apply with brush, palette knife or texturing tips, it dries flexible and resists cracking. It is lightweight and holds its definition while drying. It can be applied to almost any surface and can be used under paint, over paint or mixed with paint. Cleans up easily. Nontoxic.

M-S8206 Texturing Medium 8 oz . . . . .10.29

### Resist Sticks

The wax resist stick is applied to areas of a painting where you want the watercolor pigment to repel the surface. The resist can be applied to the paper to create sparkle, texture and highlights.

M-S8207 Resist Sticks/pkg 4 . . . . .4.39

## Masking Fluid

Used to block areas or details from unwanted paint coverage. Allow fluid to dry before painting. Lift the mask when painting is dry by rubbing gently with a fingertip or soft eraser. Unlike other artists friskets, Scheewe Masking Fluid is tinted light blue. It will not stain or damage surface yet permits the artist to easily see where it has been applied. Non-toxic.

## Susan Scheewe Foliage Brushes

Carded: wholesale discount 50%, any quantity.

This is an angular bristle brush that is wonderful for creating foliage. Place the brush in water for a few minutes prior to use, if you are just starting your painting. The water will fill the bristles, making the brush flair. Tap off the excess water on a paper towel, dip it into the pigment, then on a test sheet of paper, check for color and the amount of water in the brush. If the brush is too dry, almost no pigment will come off. If the brush is too wet, the color will blob together.

M-S8035	Foliage Angular 1/4" . . . . .	6.49

# Acrylic Ink

## FW Artists Liquid Acrylic

This ink is popular for Oil Rouging Projects. FW Acrylic Artists' Inks are made with pigments, not dyes, which give them excellent tinting strength and good lightfastness. Use them full

strength with brushes, airbrushes and technical pens, or dilute them for subtle tones. Water-resistant once dry.

## Archival Mediums

*Archival Mediums are formulated with odourless solvents of very low toxicity, so that there is no danger to yourself or others when you paint.*

Wholesale discount 50%, case 12 or 40%, any quantity.

100 ML bottles (3.5oz):

Archival Odourless Classic Medium

This medium gives a long manipulation time for overpainting and great control over detail. It has been specially formulated using very low odour solvents.

JOS256 Odourless Classic Medium . . . . . 6.23

### Fast Drying Archival Fat Medium

A syrupy heavy bodied medium used for "juicier" techniques. It produces glowing translucent effects in glazing, and small additions to paint produce the "long stringy" paint favored by the Old Masters. It speeds drying time and reduces brush texture.

JOS257 Fat Medium . . . . .6.96

### Archival Odourless Lean Medium

For fast drying this medium is ideal for reducing paint strength or viscosity. It is useful for underpainting, especially good for glazing techniques and it promotes rapid drying.

JOS258 Odorless Lean Medium . . . . .6.23

### Archival Odourless Solvent

A specially developed healthier replacement for mineral turpentine, for cleaning brushes and for thinning paint. Unlike turp, Archival solvent will not eat into a top skin of paint that is not properly dry.

JOS259 Odorless Solvent . . . . .7.13

### Chroma Incredible Brush Cleaner

JOS1940 Incredible Brush Cleaner 60ml . . . .2.72

JOS1941 Incredible Brush Cleaner 250ml . . . .7.13

## Daler-Rowney Artist and Georgian Oil Colors and Mediums
